

# What Kind of Blood Have You?

Thin, Pale and Watery—Keeping Your Weak, Nervous and Run-Down—Or Rich, Red Healthy Blood With Plenty of Iron In It to Give You Strength, Energy, Power and Endurance.

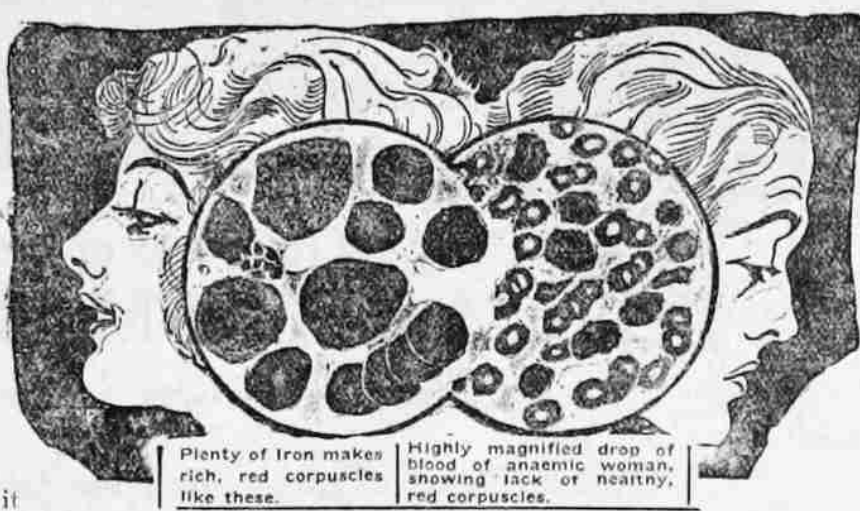

## Physician Says Iron is Red Blood Food

Explains How Nuxated Iron—Master Strength-Builder of The Blood—Helps Give Renewed Vim and Energy to Men and Puts Roses Into the Cheeks of Women.

If you tire easily, if you look pale, haggard and worn, if you feel generally weak, nervous and run-down it would probably astonish you to look at a drop of your own blood under a powerful microscope and compare it with a drop of pure, healthy blood—rich in iron. Actual blood tests show that a tremendously large number of people who are weak and ill lack iron in their blood and that they are ill for no other reason than lack of iron. Iron deficiency paralyzes healthy, energetic action, pulls down the whole organism and weakens the entire system.

There are thousands whose bodies are aging and breaking down at a time when they should be enjoying that perfect health which comes from plenty of iron in the blood. They are not getting the natural life forces of the body a chance to do their work. Yet others go through life apparently possessing strength and the energy of earlier days through their bodies courses the energy and power that they receive from iron—filled with strength-giving iron from red blood food and physicians explain below why they prescribe organic iron—Nuxated Iron—to build up the red blood corpuscles and give increased power and endurance.

Commenting on the use of Nuxated Iron as a tonic, strength and blood-builder by over three million people annually, Dr. James Francis Sullivan, formerly physician of Bellevue Hospital (Outdoor Dept.), New York, and the Westchester County Hospital, said: "Modern methods of cooking and the rapid pace at which people of this century live have made such an alarming increase in iron deficiency in the blood of American men and women that I have often marveled

at the large number of people who lack iron in the blood—and who never suspect the cause of their weak, nervous, run-down state. Lack of iron in the blood not only makes a man a physical weakling, nervous, irritable, easily fatigued, but it utterly robs him of that virile force, that stamina and strength of will which are so necessary to success and power in every walk of life. It may also transform a beautiful sweet-tempered woman into one who is cross, nervous and irritable. I have strongly emphasized the great necessity of physicians making blood examinations of their weak, anemic, run-down patients. Thousands of persons a year after year suffering from physical weakness and highly nervous condition due to lack of sufficient iron in their blood corpuscles without ever realizing the real cause of the trouble. But in my opinion you can't make these strong, vigorous, successful, sturdy iron men by feeding them on metallic iron. The old form of metallic iron must go through a digestive process to transform them into organic iron—Nuxated Iron—before they are ready to be taken up and assimilated by the human system. Notwithstanding all that has been said and written on this subject by well-known physicians, because of people still insist in dosing themselves with metallic iron simply, I suppose, because it costs a few cents less. I strongly advise readers in all cases to get a physician's prescription for organic iron—Nuxated Iron—or if you don't want to go to this trouble then purchase only Nuxated Iron in its original packages and see that this particular name (Nuxated Iron) appears on the package. If you have taken preparations such as Nux and Iron and other similar iron products and failed to get results, remember that such products are an entirely different thing from Nuxated Iron.

Dr. H. R. Vail, formerly physician in the Baltimore Hospital, and a Medical Examiner, says: "Throughout my ex-

perience on Hospital Staffs and as a Medical Examiner, I have been astonished at the number of patients who have vainly tried to doctor for various diseases, when in reality their delicate, run-down state was simply the result of lack of iron in the blood. Time and again I have prescribed organic iron—Nuxated Iron—and surprised patients at the rapidity with which the weakness and general debility was replaced by a renewed feeling of strength and vitality. I took Nuxated Iron myself to build up after a serious case of nervous exhaustion. The effects were apparent after a few days and within three weeks it had virtually revitalized my whole system and put me in superb condition."

Dr. T. Alphonsus Wallace, a physician of many years' experience in this country and abroad, says: "I do not make a practice of recommending advertised medical products, but I have found Nuxated Iron as potent in nervous, run-down conditions, that I believe all should know it. The men and women of today need more iron in their blood than was the case twenty or thirty years ago. This because of the demineralized diet which now is served daily in thousands of homes and also because of the delicate, nervous resistance necessary to offset the greater number of health hazards to be met at every turn."

Manufacturers' Note. Nuxated Iron which is prescribed and recommended above by physicians is not a secret remedy but one which is well known to druggists everywhere. Unlike the older iron organic iron products it is easily assimilated and does not injure the teeth, make them black, nor upset the stomach. The manufacturers guarantee a successful and entirely satisfactory result to every purchaser or they will refund your money. It is dispensed in this city by A. H. McIntyre Drug Co. and all other druggists. —Advertisement.

# SMOOT DEFENDS CHURCH

Praises Members for Their Integrity and Patriotism.

## REFUTES STORIES

People of Utah Attacked By Writers of Libelous Articles.

WASHINGTON, Nov. 11.—Praising its integrity and patriotism, Senator Smoot of Utah today, in the senate, defended the Mormon church and its members and protested against what he termed the libelous published attacks on that religion.

"I protest against the libelous matter that has been published about the country," Senator Smoot declared. "The Mormon church has nothing to conceal. I want the people of the United States to know that so far as polygamy is concerned it is dead and these scandal mongers in the future must find something else to write."

Senator Smoot declared he was not in the senate as a representative of the Mormon church, but as the representative of the people of Utah whom he said, "have been so foully misrepresented."

Senators Ashurst, Arizona, Thomas, Colorado, and Henderson, Nevada, joined with the Utah senator in praising the integrity, thriftiness and patriotism of the Mormon people.

He had arranged an assortment of tin cans, varying from the large five-gallon variety to the smallest of milk containers, and with this equipment went forth in the streets of the city. One of the weirdest, indescribable noises that a person could conceive was produced.

The idea was not particularly new but the arrangement of the cans, and the sound produced, set the youth apart from other can dancers.
